# Kuber Raj Kunal

**AI Engineer | Generative AI | Agentic AI | Multi-Agent Systems | Google Cloud**

Airoli, Mumbai | krk2000raj@gmail.com | +91 6371 649 030 | kuber-raj-kunal | KuberRaj

## Profile

**AI Engineer & Associate Consultant** with experience architecting Google ADK-based multi-agent systems, production-oriented LLM workflows, and GCP data automation solutions. Proficient in Python, FastAPI, FastMCP, React, BigQuery, and Cloud Run, with hands-on experience in custom tool integration, human-in-the-loop guardrails, RAG, agents, and full-stack AI application delivery.

## Skills

**Programming Languages:** Python, SQL, JavaScript
**Frontend Development:** React, HTML5, CSS3, Tailwind CSS, REST API Integration
**Backend/API Development:** Flask, FastAPI, FastMCP, Request Handling, RESTful API
**Data Engineering and Warehousing:** BigQuery Pandas, NumPy, dbt (Data Build Tool), Apache Airflow
**Databases and Storage:** MySQL, Cloud Storage (GCS, AWS S3)
**Generative AI and Agentic AI:** LLM, Gemini Models, Prompt Engineering, Prompt Optimization, Google ADK(Agent Development Kit), Multi-Agent systems, Function and Tool Calling, Guardrails, RAG
**Cloud Services: GCP** (Agent Platform, BigQuery, Compute Engine, Cloud Run, Cloud Code)
**Version Control and Collaboration:** Git, GCP Source Repositories, Agile / Scrum Collaboration
**Additional Exposures:** Vector Databases, Terraform, AWS Infrastructure

## Experience

**Capgemini**, Associate Consultant, Mumbai — Jan 2026 – Present

**Agentic AI Development (Google Cloud)**
*Agentic AI Engineer | Ongoing*

- Leading a **team** to architect an agentic platform using **Google Agent Development Kit agentic framework** and **GCP services**, improving data ingestion speed and pipeline reliability by **40%**.
- Directing full-stack orchestration using **FastAPI** and **React**, implementing human-in-the-loop approval workflows as operational guardrails and **accelerating feature delivery by 25%**.
- Developed multi-agent workflows using **FastMCP** and **Vertex AI**, including a Data Quality Agent that increased validation accuracy by **45%** and cut manual preparation effort by **60%**.

**Capgemini**, Senior Analyst, Mumbai — Oct 2024 – Dec 2025

**GenAI & Mainframe Migration Initiatives**
*GCP Data Engineer | Accelerator SME | Feature Developer | Completed*

- Engineered a high-availability GenAI accelerator for mainframe-to-cloud conversion, optimizing LLM workflows and improving conversion accuracy and service availability.
- Developed full-stack product features using **Python and React**, reducing model inference latency through coordinated backend and UI performance optimization.

**Agentic RAG Portfolio Assistant**, Personal Project — Portfolio Assistant

*AI Engineer | Personal Project | Deployed*

- Developed and deployed a **Google ADK-powered RAG** portfolio assistant with with Gemini embeddings, semantic retrieval, grounded responses, SSE streaming, and a responsive React and Tailwind CSS interface hosted on Vercel and Render.

## Education

**Bachelor of Technology, CSE** — Sri City, AP
**Indian Institute of Information Technology** — 2024

- **Coursework:** Artificial Intelligence, Machine Learning, Cryptography, Data Structures and Algorithms, Computer Vision

## Certificates

**Associate Cloud Engineer(ACE)** , *Google Cloud* — Mar 2026
**Generative AI Leader** , *Google Cloud* — Apr 2026
